NEW NOTE TO GERMAN AGREED ON BY PRESIDENT WILSON AND CABINET

RUSSIANS LOSE BALTIC PORT; DEFEATED ON BOTH WINGS; WARSAW'S FALL SEEMS NEAR

Von Hindenburg and Von Mackensen Closing Vise on the Polish Capital.

PRESSING ON TO RIGA.

Germans Plan to Clear Gulf of Mines and Use It as a Naval Base.

LONDON, July 20.—The uppermost question concerning the Eastern campaign now is when Warsaw will be evacuated, rather than whether it will be given up. With virtually all of Courland in the hands of Field Marshal von Hindenburg, and with the Austro-German forces across the Bug, continued occupancy of the Polish capital exposes the Russians to the danger of disaster. The Germans now threaten the fall of Novo Georgievsk, which is only ten miles from Warsaw.

The occupation of Windau by the Germans in the north is paralleled from the southeast by the advance of the Teutonic allies on the Lublin Railroad, one of the chief arteries of communication with Warsaw.

From Windau the Germans are reported to be advancing toward Riga, with the intention of seizing that port and clearing the nearby seas of mines, thus obtaining another naval base.

All the glory has not gone to von Hindenburg, as his colleague, Field Marshal von Mackensen, is credited with the capture of Krasnostav.

Military men here do not conceal their amazement at the Kaiser's daring in attempting by simultaneous drives to expel the Russians from their naval base at Riga, to capture the capital of Poland and to force a general Russian retreat eastward toward Brest-Litovsk, 115 miles away, a coup that would release great German armies for operations against the French and English. At least two million Germans are believed to be engaged.

The censor permitted the Morning Post to print a despatch from its Budapest correspondent reporting that the gradual evacuation of Warsaw has been ordered, though military officials here discredited the report.

The Russian War Office admits that von Hindenburg's centre continues to advance upon the Narew front. The assumption here is that Russian troops have been withdrawn from this portion of the line to reinforce the armies blocking Mackensen's progress from the southwest. All Petrograd dispatches agree that Mackensen's drive the main German offensive.

NOT LINDON BATES JR.
Body of Lusitania Victim Buried as Leonidas Pistas.

A cablegram received to-day by the family of Lindon Bates Jr., who lost his life when the Lusitania was sunk after an attack by a German submarine, stated that the body found on the Limerick shore yesterday, which was believed to be that of Mr. Bates, had been buried as that of Leonidas Pistas of Attika, Greece, also a victim of the disaster.

\$10,000 IS ADDED BY NEW YORKER TO CONSCIENCE FUND

Writes He Has Doubled the Amount Stolen from Government, but Sends More.

WASHINGTON, July 20.—Ten thousand dollars in currency, the second largest contribution to the "Conscience Fund" ever received by the Government, arrived at the Treasury Department to-day in a plain envelope mailed yesterday at New York, accompanied by an unsigned letter, saying:

"The sender has paid double to the United States the amount he stole and still conscience is not satisfied. Here is another payment."

The package contained three \$1,000 gold certificates, eight \$500 certificates and thirty \$100 silver and gold notes.

Treasury officials found nothing in the letter or the amount to indicate a connection with any of the Government losses by fraud or theft, so they placed it with \$500,000 more which has accumulated in the Treasury vaults from conscience-stricken folk who have sent sums ranging from one cent to \$18,669.

The largest sum ever received came in 1909, probably from some one who had committed a customs fraud. The \$10,000 package to-day came addressed to Secretary McAdoo and was marked "personal."

FRANK'S FEVER RISES, WOUND IS INFECTED

Temperature Goes Above 101, but Doctors Say They Are Hopeful of Saving His Life.

MILLEDGEVILLE, Ga., July 20.—Infection set in seriously this afternoon in Leo M. Frank's wound and his temperature rose from 100 to 101.4. The doctors still said they were hopeful, but added that the crisis would not be passed for some days.

Frank has been removed to one of the prison farm offices, where it is quieter than in the infirmary. His wife leaves his bedside only for meals.

Green, his assistant, was still sulen and silent. E. L. Ratney of the State Prison Commission tried to talk with him, but he would be the only answers he received to his questions.

It was announced to-day that Gov. Harris and the three Prison Commissioners will be in Milledgeville Saturday to investigate the case.

BOY STAMMERED, SO SHE POISONED HIM

Mrs. Manthey Took Drug Herself. But Will Recover—Son Likely to Die.

NEWARK, N. J., July 20.—Because her eight-year-old son Robert stammered when he speaks, Mrs. Freda Manthey gave him poison and then swallowed some herself.

Physicians said to-day that the boy probably will die, but that his mother, who is technically under arrest, will recover.

NEW BECKER TRIAL WILL BE SOUGHT ON NEW EVIDENCE

This Concerns the \$6,000 Said to Have Been Paid to Jack Rose.

TWO SECRET WITNESSES

Mrs. Becker Comes From Sing Sing With Husband's Full Statement.

Counsel for Charles Becker announced to-day that they were preparing for an application for a new trial on the ground of newly discovered evidence. This is about the only move they can take and they claim to have reasonable expectation of success.

They anticipate that if such a motion is entertained by a Justice of the Supreme Court the Governor will order another postponement of the execution to allow time for the submission of arguments and briefs. Becker is now scheduled to die on July 28.

The newly discovered evidence is believed to have been furnished by Samuel H. Wandell, a lawyer, of No. 2 Rector Street, who is said to have acted for two clients. These clients are reported to be familiar with the inside of the Rosenthal murder. The alleged important evidence is said to concern \$6,000 which is said to have been paid to Jack Rose a few hours before Rosenthal was killed.

"We have the evidence," said Martin T. Mantion this afternoon, "and it is, we have no doubt, of sufficient weight to bring about a new trial for Becker. An application for the trial will be made as soon as possible—certainly before the end of this week."

In the event of the refusal of a Justice of the Supreme Court to grant a new trial on the new evidence counsel for Becker might make a last play by appealing to the United States Courts and ask for interference on the ground that Becker's constitutional rights have not been conserved.

Mrs. Becker went to Sing Sing Prison late last night and left a bundle of papers with her husband. This is supposed to have been Becker's statement which his lawyers had been examining and which will probably be given out for publication this evening. The gist of the statement was published exclusively by The Evening World yesterday.

It is not a new story, but has been told in various forms several times since Herman Rosenthal was killed. Briefly, the story credited to Becker is that Rosenthal had been sent into the territory staked off as a gambling preserve by Bridge Webber and other uptown gamblers, because he owed "Big Tim" Sullivan money and it was the only way Big Tim saw for Rosenthal to get enough to pay up.

Harry Appelbaum, formerly secretary to "Big Tim" Sullivan, and his companion at all business meetings, said, after reading parts of the Becker story, that he didn't believe Becker authorized it, and that it was a tissue of lies. He denied "Big Tim" ever gave Jack Rose \$6,000 or any other sum of money for any purpose and declared "Big Tim" was not interested in Rosenthal or his gambling house, or in any other gambling house.

William Thaw's Plane Shot To Ribbons.

PARIS, July 20.—William Thaw has written that his aeroplane was shot to ribbons while he was making an observation trip above the German lines recently. Apparently he landed without injury, as he adds that he is coming here on a fact-finding mission.

THREE TAUBES DESTROYED IN A THRILLING AIR BATTLE

Twelve Fast British Aeroplanes Block Intended Raid on East Coast.

FRENCH ON AN AIR RAID.

Colmar and Crown Prince's Railway Base Bombarded by Aeroplanes.

LONDON, July 20.—Three big German taubes were destroyed in a battle royal in the air with twelve fast British aeroplanes off the mouth of the Thames a few days ago, according to circumstantial stories circulated here.

The German aviators are reported to have crossed the North Sea, intending to raid the English Coast. Approaching shore they maneuvered in wide circles, giving observers time to telegraph warnings to English aviators, who rushed to the attack by two and threes.

The Germans tilted upward to a great height, hotly pursued. Thousands of feet below watchers gathered on the shore saw the machines darting back and forth, silvered in the sunlight, heard the faint sputter of motor exhausts and the crack of rifles and pistols. Four British planes first came in contact with the Germans and as others joined in the battle the Germans were cut off in their attempt to retreat seaward.

First the foremost Taube was seen to fall. Then a second shot downward in a mass of flames, plunging beneath the waves. The fight by this time had moved so far seaward that spectators along the coast could no longer trace the tiny specks among the clouds.

The following day naval boats found one of the German planes floating on the water, its occupants strapped to their seats with bullet holes through their heads. The third Taube is reported to have been lost.

PARIS, July 20.—Six French aeroplanes to-day showered bombs on the railway station at the German fortified city of Colmar, in Alsace.

The war office, in announcing the raid this afternoon, reported that four French aeroplanes bombed the railway junction at Challerange yesterday.

Eight shells, carrying 150 pounds of high explosives, were dropped on the railway buildings at Colmar. Three bombs of ninety pounds each were sent crashing through the roof of the main station, where large quantities of German supplies are known to have been stored, and the War Office is confident that much damage was done.

The aviators were instructed not to throw bombs in other portions of Colmar. They returned without damage.

In the attack on Challerange yesterday forty-eight bombs were thrown, the War Office declared it has reason to believe that considerable damage was done.

Challerange lies at the junction of two railways in the northwestern Argonne. The object of yesterday's raid was to wreck the junction through which a large part of the supplies to the Crown Prince's army around Verdun are carried.

POLICE BULLETS END RIOT AT GATE OF OIL REFINERY

Foreigners in Strike at Bayonne Try to Stop Men From Going to Work.

POLICE CHIEF HURT.

Stones Hurlled at Guards of Standard Oil Plant in Jersey Town.

Several hundred men on strike at the Constate Hook plant of the Standard Oil Company, at Bayonne, fought a battle with the police guard detailed to watch the building to-day. They were driven off when the police charged and fired over the heads of the strikers. Several policemen and strikers were struck with stones and fifteen prisoners were taken.

Over 5,000 men, most of them foreigners who have been in this country but a few years, were employed in the plant, and several hundred of them were in front of the place to-day when a few tried to pass in to work. The strikers attacked the men entering the place, and practically the entire police force of Bayonne was hurried to the spot on the order of Director of Public Safety Henry Wilson.

Inspector Daniel Cady led the police as they charged the mob with clubs, and he was struck with a rock and injured. As the strikers showered the policemen with stones and grappled with some of them Inspector Cady shouted a warning and then ordered the police to fire into the air. The first volley scattered the crowd. Two or three shots were fired by strikers and policemen narrowly escaped injury.

Immediately following the riot General Manager George D. Gifford issued an order shutting down the entire plant. With the adjoining Tide Water Oil plant, it forms the source of the Standard Oil supply of oil, gasoline, naphtha and by-products. It is said that in anticipation of a strike a large reserve supply is on hand and the plant can remain closed for some time.

A number of strikers were picked about the plant all day, but they were kept at a distance by the police. The principal fear of the authorities is that an attempt will be made to fire the buildings containing the great supply of gasoline and naphtha, and if there is any further attack on the police Deputy Sheriffs will probably be called in to aid in guarding the place.

LLOYD GEORGE SETTLES WELSH MINE STRIKE

Brings Men and Colliery Owners Together and Ends Menace to Great Britain.

CARDIFF, July 20.—The great strike of South Wales coal miners that threatened to interfere seriously with the production of war munitions for the British armies, has been settled. It was announced early this evening.

Strike leaders made the announcement, following a conference late this afternoon with Minister of Munitions Lloyd George and other members of the Cabinet, who had just come from a protracted session with the colliery owners. The miners won important concessions. Credit for settling the strike is given to Lloyd George.

ATTACK ON ORDUNA LAID BEFORE CABINET, INVESTIGATION ORDERED

Wilson and His Advisers Devote More Than Two Hours to a Discussion of the Various Phases of Our Differences With Germany

NEW NOTE WILL BE SENT WITHIN A DAY OR TWO.

By Samuel M. Williams.

(Special Staff Correspondent of The Evening World.)

WASHINGTON, July 20.—President Wilson and his cabinet, with Secretary Redfield the only absentee, were in session for more than two hours to-day discussing the note that is to be sent to Germany.

A final draft of the note was approved. Cabinet officers refused to discuss its contents or to intimate how the insistence of the United States to obtain a definite answer to its representations on submarine warfare had been phrased.

The new note will be ready in a day or two for despatch to Berlin. Some changes suggested in to-day's meeting will be incorporated and after careful revision by Secretary Lansing, it will be cabled to Ambassador Gerard. Publication will be withheld until the note actually has been received in Berlin.
